

LYNGSØ GARDEN MATERIALS, INC

Discount/Donation Policy:

Lyngso Garden Materials is proud to support our community in many ways.

We believe that educating people about the value of organic, sustainable, drought resistant gardening is beneficial to our California way of life. Beautifying and educating schools, libraries, community gardens, senior centers, people and dog parks, etc. is just one way we support the community.

Pamela Parkinson is responsible for overseeing LYNGSO'S donation requests.

Donation requests must be submitted in writing on your organizations letterhead. It must include a brief description of the event and the materials needed, quantity of materials needed and how your project will benefit the community. It should also include a brief mention of how Lyngso will be recognized should your request be granted. Also be sure to include the contact person's email address and phone number.

Submit the request letter to Pamela Parkinson and please understand that it can take up to 2 weeks to consider your request, so please be patient. We receive many requests and we unfortunately cannot support all of them, but we do try.
